

REMARKS

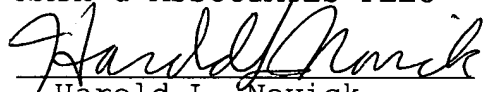

Claim 1 and 10 are presently in this case.

This Preliminary Amendment is to place the Article 34 claim in this National Phase PCT case. This Article 34 claim was examined in the attached IPER. It is believed that only the original claims filed with the International PCT application are presently in this case. Claim 1 of the International Application has also been retained so that there is continuity between this National Phase case and the International Application. After this case is granted a filing date, it is the present intention that Claim 1 will be canceled.

It is respectfully requested that this application be substantively examined.

Respectfully submitted,  
NATH & ASSOCIATES PLLC
